

Cloth Face Coverings

Wearing facial coverings:

1. Use ties or ear loops to secure cloth covering over mouth, nose, and chin.
2. Adjust so it fits snugly and comfortably against the face.
3. Wash and dry after each day's use with laundry detergent and hottest water suitable for the fabric. Dry on high heat.
4. **DO NOT** touch eyes, nose, or mouth while wearing or when removing. Do not wear if wet from laundering, mucous, or spit.
5. Wash hands **thoroughly** before putting on and after removal.

What Does a Cloth Face Covering Do?

- ✔ Primarily protects ***OTHERS*** in a public setting by limiting the distance that potentially infectious respiratory droplets travel.
- ✔ Cloth masks are a supplement to and not a substitute for social distancing and frequent hand washing.

What Does a Cloth Face Covering NOT Do?

- ✘ **DOES NOT** protect ***YOU*** from infectious aerosols in environment.
- ✘ **NOT** to be used on someone unconscious, incapacitated, less than 2 years of age.
